FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended June 30, 2013

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

Commission file number 001-32514

DIAMONDROCK HOSPITALITY COMPANY

(Exact Name of Registrant as Specified in Its Charter)

Maryland
(State of Incorporation)

20-1180098
(I.R.S. Employer Identification No.)

3 Bethesda Metro Center, Suite 1500, Bethesda, Maryland
(Address of Principal Executive Offices)

20814
(Zip Code)

(240) 744-1150
(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See definition of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer Non-accelerated filer Smaller reporting company
(Do not check if a smaller reporting company)

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

The registrant had 195,470,791 shares of its \$0.01 par value common stock outstanding as of August 9, 2013.

The accompanying notes are an integral part of these condensed consolidated financial statements.

DIAMONDROCK HOSPITALITY COMPANY

**Notes to the Condensed Consolidated Financial Statements
(Unaudited)**

1. Organization

DiamondRock Hospitality Company (the “Company” or “we”) is a lodging-focused real estate company that currently owns a portfolio of premium hotels and resorts. Our hotels are concentrated in key gateway cities and in destination resort locations and most are operated under a brand owned by one of the leading global lodging brand companies (Marriott International, Inc. (“Marriott”), Starwood Hotels & Resorts Worldwide, Inc. (“Starwood”), or Hilton Worldwide (“Hilton”). We are an owner, as opposed to an operator, of the hotels in our portfolio. As an owner, we receive all of the operating profits or losses generated by our hotels after we pay fees to the hotel managers, which are based on the revenues and profitability of the hotels.

As of June 30, 2013, we owned 27 hotels with 11,590 guest rooms, located in the following markets: Atlanta, Georgia; Boston, Massachusetts (2); Burlington, Vermont; Charleston, South Carolina; Chicago, Illinois (2); Denver, Colorado (2); Fort Worth, Texas; Los Angeles, California (2); Minneapolis, Minnesota; New York, New York (4); Oak Brook, Illinois; Orlando, Florida; Salt Lake City, Utah; San Diego, California; San Francisco, California; Sonoma, California; St. Thomas, U.S. Virgin Islands; Vail, Colorado; and Washington D.C. (2). We also own a senior mortgage loan secured by a 443-room hotel located in Chicago, Illinois and have the right to acquire, upon completion, a 282-room hotel under development in New York City.

We conduct our business through a traditional umbrella partnership REIT, or UPREIT, in which our hotel properties are owned by our operating partnership, DiamondRock Hospitality Limited Partnership, or subsidiaries of our operating partnership. The Company is the sole general partner of our operating partnership and currently owns, either directly or indirectly, all of the limited partnership units of our operating partnership.

2. Summary of Significant Accounting Policies

Basis of Presentation

We have condensed or omitted certain information and footnote disclosures normally included in financial statements presented in accordance with U.S. generally accepted accounting principles, or U.S. GAAP, in the accompanying unaudited condensed consolidated financial statements. We believe the disclosures made are adequate to prevent the information presented from being misleading. However, the unaudited condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements and notes thereto as of and for the year ended December 31, 2012, included in our Annual Report on Form 10-K filed on March 1, 2013.

In our opinion, the accompanying unaudited condensed consolidated financial statements reflect all adjustments necessary to present fairly our financial position as of June 30, 2013 and the results of our operations for the fiscal quarters ended June 30, 2013 and June 15, 2012 and the periods from January 1, 2013 to June 30, 2013 and January 1, 2012 to June 15, 2012, and our cash flows for the periods from January 1, 2013 to June 30, 2013 and January 1, 2012 to June 15, 2012. Interim results are not necessarily indicative of full-year performance because of the impact of seasonal and short-term variations.

Our financial statements include all of the accounts of the Company and its subsidiaries in accordance with U.S. GAAP. All intercompany accounts and transactions have been eliminated in consolidation. If the Company determines that it has an interest in a variable interest entity within the meaning of the FASB ASC 810, *Consolidation*, the Company will consolidate the entity when it is determined to be the primary beneficiary of the entity.

Change in Reporting Periods

Effective January 1, 2013, we report quarterly operating results on a calendar cycle, which is now consistent with all of our hotel managers. We continue to report our annual financial statements on a calendar year basis. Historically, our quarterly operating results have been reported based on a 52-53 week fiscal calendar used by Marriott, the manager of 14 of our hotels. Beginning in 2013, Marriott converted to reporting results based on a 12-month calendar year. Previously, Marriott's fiscal year consisted of thirteen 4-week accounting periods, ended on the Friday closest to December 31, and included twelve weeks of operations for each of the first three quarters and sixteen weeks for the fourth quarter. Accordingly, our first three quarters in 2012 ended on March 23, June 15 and September 7. In contrast, the managers of our other hotels, such as Hilton, Starwood and other independent managers, reported results on a monthly basis. In addition, our 2012 quarterly results of operations include results from our non-

[Table of Contents](#)

Marriott-managed hotels as follows: first quarter (January to February), second quarter (March to May), third quarter (June to August) and fourth quarter (September to December).

The following table illustrates the change in our reporting periods:

Quarter	2012 Reporting Calendar		2013 Reporting Calendar	
1st	Marriott-managed hotels	January 1 - March 23	All Hotels	January 1 - March 31
	Non-Marriott-managed hotels	January 1 - February 29		
2nd	Marriott-managed hotels	March 24 - June 15	All Hotels	April 1 - June 30
	Non-Marriott-managed hotels	March 1 - May 31		
3rd	Marriott-managed hotels	June 16 - September 7	All Hotels	July 1 - September 30
	Non-Marriott-managed hotels	June 1 - August 31		
4th	Marriott-managed hotels	September 8 - December 31	All Hotels	October 1 - December 31
	Non-Marriott-managed hotels	September 1 - December 31		

We will not restate the previously filed 2012 quarterly financial statements because Marriott did not provide us operating results for 2012 on a daily basis. Because we rely upon our hotel managers for the hotel operating results used in our financial statements, the unavailability of this information on a calendar quarter basis for 2012 made restating our financial statements unfeasible. Accordingly, our 2012 reported quarterly operating results are not comparable to our 2013 quarterly operating results.

Property and Equipment

Investments in hotel properties, land, land improvements, building and furniture, fixtures and equipment and identifiable intangible assets are recorded at fair value upon acquisition. Property and equipment purchased after the hotel acquisition date is recorded at cost. Replacements and improvements are capitalized, while repairs and maintenance are expensed as incurred. Upon the sale or retirement of a fixed asset, the cost and related accumulated depreciation is removed from the Company's accounts and any resulting gain or loss is included in the statements of operations.

Depreciation is computed using the straight-line method over the estimated useful lives of the assets, generally 15 to 40 years for buildings, land improvements, and building improvements and 1 to 10 years for furniture, fixtures and equipment. Leasehold improvements are amortized over the shorter of the lease term or the useful lives of the related assets.

We review our investments in hotel properties for impairment whenever events or changes in circumstances indicate that the carrying value of the hotel properties may not be recoverable. Events or circumstances that may cause a review include, but are not limited to, adverse changes in the demand for lodging at the properties due to declining national or local economic conditions and/or new hotel construction in markets where the hotels are located. When such conditions exist, management performs an analysis to determine if the estimated undiscounted future cash flows from operations and the proceeds from the ultimate disposition of a hotel, less costs to sell, exceed its carrying value. If the estimated undiscounted future cash flows are less than the carrying amount of the asset, an adjustment to reduce the carrying amount to the related hotel's estimated fair market value is recorded and an impairment loss is recognized.

We will classify a hotel as held for sale in the period that we have made the decision to dispose of the hotel, a binding agreement to purchase the property has been signed under which the buyer has committed a significant amount of nonrefundable cash and no significant financing or other contingencies exist which could cause the transaction to not be completed in a timely manner. If these criteria are met, we will record an impairment loss if the fair value less costs to sell is lower than the carrying amount of the hotel and related assets and will cease recording depreciation expense. We will classify the loss, together with the related operating results, as discontinued operations on the statements of operations and classify the assets and related liabilities as held for sale on the balance sheet.

Note Receivable

We initially record acquired notes receivable at cost. Notes receivable are evaluated for collectability and if collectability of the original amounts due is in doubt, the value is adjusted for impairment. Our impairment analysis considers the anticipated cash receipts as well as the underlying value of the collateral. If collectability is in doubt, the note is placed in non-accrual status. No interest is recorded on such notes until the timing and amounts of cash receipts can be reasonably estimated. We record cash payments received on non-accrual notes receivable as a reduction in basis. We continually assess the current facts and circumstances

[Table of Contents](#)

to determine whether we can reasonably estimate cash flows. If we can reasonably estimate the timing and amount of cash flows to be collected, then income recognition becomes possible.

Revenue Recognition

Revenues from operations of the hotels are recognized when the services are provided. Revenues consist of room sales, golf sales, food and beverage sales, and other hotel department revenues, such as telephone, parking, gift shop sales and resort fees.

Earnings (Loss) Per Share

Basic earnings (loss) per share is calculated by dividing net income (loss) by the weighted-average number of common shares outstanding during the period. Diluted earnings (loss) per share is calculated by dividing net income (loss) by the weighted-average number of common shares outstanding during the period plus other potentially dilutive securities such as equity awards or shares issuable in the event of conversion of operating partnership units. No adjustment is made for shares that are anti-dilutive during a period.

Comprehensive Income (Loss)

We do not have any items of comprehensive income (loss) other than net income (loss). If we do incur any additional items of comprehensive income (loss), such that a statement of comprehensive income would be necessary, such statement will be reported as one statement with the condensed consolidated statement of operations.

Stock-based Compensation

We account for stock-based employee compensation using the fair value based method of accounting. We record the cost of stock-based awards based on the grant-date fair value of the award. That cost is recognized over the period during which an employee is required to provide service in exchange for the award. No compensation cost is recognized for equity instruments for which employees do not render the requisite service.

Income Taxes

We account for income taxes using the asset and liability method. Deferred tax assets and liabilities are recognized for the estimated future tax consequences attributable to the differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates in effect for the year in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities from a change in tax rates is recognized in earnings in the period when the new rate is enacted.

We have elected to be treated as a REIT under the provisions of the Internal Revenue Code of 1986, as amended, which requires that we distribute at least 90% of our taxable income annually to our stockholders and comply with certain other requirements. In addition to paying federal and state taxes on any retained income, we may be subject to taxes on "built-in gains" on sales of certain assets. Our taxable REIT subsidiaries will generally be subject to federal, state, local, and/or foreign income taxes.

In order for the income from our hotel property investments to constitute "rents from real properties" for purposes of the gross income tests required for REIT qualification, the income we earn cannot be derived from the operation of any of our hotels. Therefore, we lease each of our hotel properties to a wholly-owned subsidiary of Bloodstone TRS, Inc., our taxable REIT subsidiary, or TRS, except for the Frenchman's Reef & Morning Star Marriott Beach Resort, which is owned by a Virgin Islands corporation, which we have elected to be treated as a TRS.

We had no accruals for tax uncertainties as of June 30, 2013 and December 31, 2012.

Fair Value Measurements

In evaluating fair value, U.S. GAAP outlines a valuation framework and creates a fair value hierarchy that distinguishes between market assumptions based on market data (observable inputs) and a reporting entity's own assumptions about market data (unobservable inputs). The hierarchy ranks the quality and reliability of inputs used to determine fair value, which are then classified and disclosed in one of the three categories. The three levels are as follows:

- Level 1 - Inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities

[Table of Contents](#)

- Level 2 - Inputs include quoted prices in active markets for similar assets and liabilities, quoted prices for identical or similar assets in markets that are not active and model-derived valuations whose inputs are observable
- Level 3 - Model-derived valuations with unobservable inputs

Intangible Assets and Liabilities

Intangible assets and liabilities are recorded on non-market contracts assumed as part of the acquisition of certain hotels. We review the terms of agreements assumed in conjunction with the purchase of a hotel to determine if the terms are favorable or unfavorable compared to an estimated market agreement at the acquisition date. Favorable lease assets or unfavorable contract liabilities are recorded at the acquisition date and amortized using the straight-line method over the term of the agreement. We do not amortize intangible assets with indefinite useful lives, but we review these assets for impairment annually or at interim periods if events or circumstances indicate that the asset may be impaired.

Straight-Line Rental Income and Expense

We record rental income and expense on a straight-line basis for leases that provide for minimum rental payments that increase in pre-established amounts over the remaining term of the lease.

Concentration of Credit Risk

Financial instruments that potentially subject the Company to significant concentrations of credit risk consist principally of our note receivable and cash and cash equivalents. We perform periodic evaluations of the underlying hotel property securing the note receivable. See further discussion in Note 5. We maintain cash and cash equivalents with various financial institutions. We perform periodic evaluations of the relative credit standing of these financial institutions and limit the amount of credit exposure with any one institution.

Use of Estimates

The preparation of the financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties

The state of the overall economy can significantly impact hotel operational performance and thus, impact our financial position. Should any of our hotels experience a significant decline in operational performance, it may affect our ability to make distributions to our stockholders and service debt or meet other financial obligations.

3. Property and Equipment

Property and equipment as of June 30, 2013 and December 31, 2012 consists of the following (in thousands):

	June 30, 2013	December 31, 2012
Land	\$ 402,198	\$ 402,198
Land improvements	7,994	7,994
Buildings	2,365,665	2,360,648
Furniture, fixtures and equipment	384,973	340,462
CIP and corporate office equipment	13,129	19,873
	<u>3,173,959</u>	<u>3,131,175</u>
Less: accumulated depreciation	(573,332)	(519,721)
	<u>\$ 2,600,627</u>	<u>\$ 2,611,454</u>

As of June 30, 2013, we had accrued capital expenditures of \$3.2 million. As of December 31, 2012, we had accrued capital expenditures of \$3.0 million.

4. Favorable Lease Assets

In connection with the acquisition of certain hotels, we recognized intangible assets for favorable ground leases and tenant leases. Our favorable lease assets, net of accumulated amortization, as of June 30, 2013 and December 31, 2012 consist of the following (in thousands):

	June 30, 2013	December 31, 2012
Westin Boston Waterfront Ground Lease	\$ 18,618	\$ 18,726
Westin Boston Waterfront - Lease Right	9,045	9,045
Minneapolis Hilton Ground Lease	5,872	5,910
Oak Brook Hills Marriott Resort Ground Lease	5,273	5,489
Lexington Hotel New York Tenant Leases	1,248	1,323
Hilton Boston Downtown Tenant Leases	396	479
	<u>\$ 40,452</u>	<u>\$ 40,972</u>

The favorable lease assets are recorded at the acquisition date and are generally amortized using the straight-line method over the remaining non-cancelable term of the lease agreement. Amortization expense for the period from January 1, 2013 to June 30, 2013 was approximately \$0.5 million.

We own a favorable lease asset related to the right to acquire a leasehold interest in a parcel of land adjacent to the Westin Boston Waterfront Hotel for the development of a 320 to 350 room hotel (the "lease right"). The option expires in 2016. We do not amortize the lease right but review the asset for impairment annually or at interim periods if events or circumstances indicate that the asset may be impaired. No impairment loss was recorded for the period from January 1, 2013 to June 30, 2013. An impairment loss of \$0.5 million was recorded during the fiscal quarter ended June 15, 2012.

The fair value of the lease right is a Level 3 measurement under the fair value hierarchy (see Note 2) and is derived from a discounted cash flow model using the favorable difference between the estimated participating rents or actual rents in accordance with the lease terms and the estimated market rents. The discount rate is estimated using a risk adjusted rate of return, the estimated participating rents are estimated based on a hypothetical hotel comparable to our Westin Boston Waterfront Hotel, and market rents are based on comparable long-term ground leases in the City of Boston.

5. Note Receivable

We own a senior mortgage loan secured by the 443-room Allerton Hotel in Chicago, Illinois (the "Allerton Loan"). On January 18, 2013, we closed on a settlement of the bankruptcy and related litigation involving the Allerton Loan. As a result of the settlement, we received a \$5.0 million cash principal payment and entered into a new \$66.0 million mortgage loan with a four-year term (plus an additional one-year extension option), bearing annual interest at a fixed rate of 5.5%. Based on the settlement, we changed the classification of the Allerton Loan from non-accrual to accrual status. The settlement is considered a restructuring of the original loan. Therefore, the carrying basis of the previous note receivable remains the carrying basis of the new note receivable. The discount resulting from the difference between our carrying basis and the \$66.0 million new Allerton Loan is recorded as interest income on a level yield basis over the anticipated term of the loan, which includes the one-year extension option. During the quarter ended June 30, 2013, we received a \$1.5 million principal payment. We recorded \$1.6 million of interest income on the Allerton Loan for the quarter ended June 30, 2013, of which \$0.7 million is the amortization of the discount and the remainder is contractual interest income earned. We recorded \$2.8 million of interest income on the Allerton Loan for the period from January 1, 2013 to June 30, 2013, of which \$1.2 million is the amortization of the discount and the remainder is contractual interest income earned. We recorded no interest income on the Allerton Loan in 2012 due to the non-accrual status.

6. Capital Stock

Common Shares

We are authorized to issue up to 400 million shares of common stock, \$0.01 par value per share. Each outstanding share of common stock entitles the holder to one vote on all matters submitted to a vote of stockholders. Holders of our common stock are entitled to receive dividends out of assets legally available for the payment of dividends when authorized by our board of directors.

We have paid the following dividends to holders of our common stock during 2013 as follows:

[Table of Contents](#)

Payment Date	Record Date	Dividend per Share
January 10, 2013	December 31, 2012	\$ 0.080
April 12, 2013	March 28, 2013	\$ 0.085
July 11, 2013	June 28, 2013	\$ 0.085

On August 5, 2013, our board of directors voted to authorize us to purchase up to \$100 million in shares of our common stock. Repurchases under this program will be made in open market or privately negotiated transactions. This authority may be exercised from time to time and in such amounts as market conditions warrant, and subject to regulatory considerations. The timing and actual number of shares repurchased will depend on a variety of factors including price, corporate and regulatory requirements, market conditions, and other corporate liquidity requirements and priorities. The share repurchase program may be suspended or terminated at any time without prior notice.

Preferred Shares

We are authorized to issue up to 10,000,000 shares of preferred stock, \$0.01 par value per share. Our board of directors is required to set for each class or series of preferred stock the terms, preferences, conversion or other rights, voting powers, restrictions, limitations as to dividends or other distributions, qualifications, and terms or conditions of redemption. As of June 30, 2013 and December 31, 2012, there were no shares of preferred stock outstanding.

Operating Partnership Units

Holders of operating partnership units would have certain redemption rights, which would enable them to cause our operating partnership to redeem their units in exchange for cash per unit equal to the market price of our common stock, at the time of redemption, or, at our option for shares of our common stock on a one-for-one basis. The number of shares issuable upon exercise of the redemption rights will be adjusted upon the occurrence of stock splits, mergers, consolidations or similar pro-rata share transactions, which otherwise would have the effect of diluting the ownership interests of the limited partners or our stockholders. As of June 30, 2013 and December 31, 2012, there were no operating partnership units held by unaffiliated third parties.

7. Stock Incentive Plans

We are authorized to issue up to 8,000,000 shares of our common stock under our 2004 Stock Option and Incentive Plan, as amended (the "Incentive Plan"), of which we have issued or committed to issue 3,453,861 shares as of June 30, 2013. In addition to these shares, additional shares of common stock could be issued in connection with the market stock unit awards and performance stock unit awards as further described below.

Restricted Stock Awards

Restricted stock awards issued to our officers and employees generally vest over a 3-year period from the date of the grant based on continued employment. We measure compensation expense for the restricted stock awards based upon the fair market value of our common stock at the date of grant. Compensation expense is recognized on a straight-line basis over the vesting period and is included in corporate expenses in the accompanying condensed consolidated statements of operations. A summary of our restricted stock awards from January 1, 2013 to June 30, 2013 is as follows:

	Number of Shares	Weighted- Average Grant Date Fair Value
Unvested balance at January 1, 2013	676,111	\$ 10.10
Granted	297,838	9.17
Additional shares from dividends	1,040	9.30
Forfeited	(16,934)	9.65
Vested	(400,722)	9.94
Unvested balance at June 30, 2013	557,333	\$ 9.74

The remaining share awards are expected to vest as follows: 269,117 during 2014, 191,877 during 2015, and 96,339 during 2016. As of June 30, 2013, the unrecognized compensation cost related to restricted stock awards was \$4.5 million and the

[Table of Contents](#)

weighted-average period over which the unrecognized compensation expense will be recorded is approximately 25 months. We recorded \$0.7 million and \$0.8 million, respectively, of compensation expense related to restricted stock awards for each of the fiscal quarters ended June 30, 2013 and June 15, 2012. For the periods from January 1, 2013 to June 30, 2013 and January 1, 2012 to June 15, 2012, we recorded \$2.0 million and \$1.6 million, respectively, of compensation expense related to restricted stock awards. The compensation expense for the period from January 1, 2013 to June 30, 2013 includes \$0.7 million related to the accelerated vesting of awards in connection with the retirement of our Chief Operating Officer on May 1, 2013.

Market Stock Units

We have awarded our executive officers market stock units (“MSUs”). MSUs are restricted stock units that vest three years from the date of grant. A summary of our MSUs from January 1, 2013 to June 30, 2013 is as follows:

	Number of Units	Weighted- Average Grant Date Fair Value
Unvested balance at January 1, 2013	258,842	\$ 11.31
Additional units from dividends	3,630	9.69
Vested	(90,620)	9.86
Unvested balance at June 30, 2013	171,852	\$ 12.04

As of June 30, 2013, the unrecognized compensation cost related to the MSUs was \$0.6 million and is expected to be recognized on a straight-line basis over a weighted average period of 17 months. For the fiscal quarters ended June 30, 2013 and June 15, 2012, we recorded approximately \$0.1 million and \$0.2 million, respectively, of compensation expense related to the MSUs. For the periods from January 1, 2013 to June 30, 2013 and January 1, 2012 to June 15, 2012, we recorded \$0.5 million and \$0.4 million, respectively, of compensation expense related to the MSUs. The compensation expense for the period from January 1, 2013 to June 30, 2013 includes \$0.2 million related to the accelerated vesting of awards in connection with the retirement of our Chief Operating Officer on May 1, 2013.

Performance Stock Units

Beginning in 2013, we awarded our executive officers performance stock units (“PSUs”). PSUs are restricted stock units that vest three years from the date of grant. Each executive officer is granted a target number of PSUs (the “PSU Target Award”). The actual number of shares of common stock issued to each executive officer is subject to the achievement of certain levels of total stockholder return relative to the total stockholder return of a peer group over a three-year performance period. There will be no payout of shares of our common stock if our total stockholder return falls below the 30th percentile of the total stockholder returns of the peer group. The maximum number of shares of common stock issued to an executive officer is equal to 150% of the PSU Target Award and is earned if our total stockholder return is equal to or greater than the 75th percentile of the total stockholder returns of the peer group. The fair values of the PSU awards are determined using a Monte Carlo simulation. A summary of our PSUs from January 1, 2013 to June 30, 2013 is as follows:

	Number of Units	Weighted- Average Grant Date Fair Value
Unvested balance at January 1, 2013	—	\$ —
Granted	217,949	9.64
Additional units from dividends	1,618	10.31
Unvested balance at June 30, 2013	219,567	\$ 9.64

As of June 30, 2013, the unrecognized compensation cost related to the PSUs was \$1.9 million and is expected to be recognized on a straight-line basis over a period of 32 months. For the fiscal quarter ended June 30, 2013, we recorded approximately \$0.2 million of compensation expense related to the PSUs. For the period from January 1, 2013 to June 30, 2013, we recorded approximately \$0.2 million of compensation expense related to the PSUs.

8. Earnings (Loss) Per Share

Table of Contents

Basic earnings (loss) per share is calculated by dividing net income (loss) available to common stockholders by the weighted-average number of common shares outstanding. Diluted earnings (loss) per share is calculated by dividing net income (loss) available to common stockholders that has been adjusted for dilutive securities, by the weighted-average number of common shares outstanding including dilutive securities.

The following is a reconciliation of the calculation of basic and diluted earnings (loss) per share (in thousands, except share and per share data):

	Quarter Ended		Period from	
	June 30, 2013	June 15, 2012	January 1, 2013 to June 30, 2013	January 1, 2012 to June 15, 2012
Numerator:				
Income (loss) from continuing operations	\$ 15,072	\$ 8,485	\$ 10,945	\$ (1,621)
Income from discontinued operations	—	459	—	13,180
Net income	\$ 15,072	\$ 8,944	\$ 10,945	\$ 11,559
Denominator:				
Weighted-average number of common shares outstanding—basic	195,515,328	167,968,579	195,408,890	167,818,564
Effect of dilutive securities:				
Unvested restricted common stock	66,912	91,483	98,562	170,324
Shares related to unvested MSUs and PSUs	112,043	265,980	159,793	265,980
Weighted-average number of common shares outstanding—diluted	195,694,283	168,326,042	195,667,245	168,254,868
Basic (loss) earnings per share:				
Continuing operations	\$ 0.08	\$ 0.05	\$ 0.06	\$ (0.01)
Discontinued operations	—	0.00	—	0.08
Total	\$ 0.08	\$ 0.05	\$ 0.06	\$ 0.07
Diluted (loss) earnings per share:				
Continuing operations	\$ 0.08	\$ 0.05	\$ 0.06	\$ (0.01)
Discontinued operations	—	0.00	—	0.08
Total	\$ 0.08	\$ 0.05	\$ 0.06	\$ 0.07

We did not include 262,461 unexercised stock appreciation rights in our calculation of diluted loss per share for each period presented as they would be anti-dilutive.

9. Debt

The following table sets forth information regarding the Company's debt as of June 30, 2013, in thousands:

[Table of Contents](#)

Property	Principal Balance	Interest Rate	Maturity Date
Courtyard Manhattan / Midtown East	\$ 41,736	8.81%	October 2014
Marriott Salt Lake City Downtown	27,817	5.50%	January 2015
Courtyard Manhattan / Fifth Avenue	49,882	6.48%	June 2016
Renaissance Worthington	54,254	5.40%	July 2015
Frenchman's Reef & Morning Star Marriott Beach Resort	58,183	5.44%	August 2015
Marriott Los Angeles Airport	82,600	5.30%	July 2015
Orlando Airport Marriott	57,182	5.68%	January 2016
Chicago Marriott Downtown Magnificent Mile	209,953	5.975%	April 2016
Hilton Minneapolis	96,054	5.464%	May 2021
JW Marriott Denver at Cherry Creek	40,324	6.47%	July 2015
		LIBOR + 3.00% (3.19% at June 30, 2013)	
Lexington Hotel New York	170,368		March 2015 (1)
Westin Washington D.C. City Center	73,283	3.99%	January 2023
The Lodge at Sonoma, a Renaissance Resort & Spa	30,913	3.96%	April 2023
Westin San Diego	70,801	3.94%	April 2023
Debt premium (2)	724		
Total mortgage debt	1,064,074		
		LIBOR + 1.90% (2.15% at June 30, 2013)	
Senior unsecured credit facility	—		January 2017 (3)
Total debt	\$ 1,064,074		
Weighted-Average Interest Rate		5.24%	

- (1) The loan may be extended for two additional one-year terms subject to the satisfaction of certain conditions and the payment of an extension fee.
(2) Recorded upon our assumption of the JW Marriott Denver at Cherry Creek mortgage debt in 2011.
(3) The credit facility may be extended for an additional year upon the payment of applicable fees and the satisfaction of certain standard conditions.

Mortgage Debt

We have incurred limited recourse, property specific mortgage debt secured by certain of our hotels. In the event of default, the lender may only foreclose on the secured assets; however, in the event of fraud, misapplication of funds or other customary recourse provisions, the lender may seek payment from us. As of June 30, 2013, 14 of our 27 hotels were secured by mortgage debt. Our mortgage debt contains certain property specific covenants and restrictions, including minimum debt service coverage ratios that trigger "cash trap" provisions as well as restrictions on incurring additional debt without lender consent. As of June 30, 2013, the cash trap provision was triggered on our Lexington Hotel New York mortgage as a result of the ongoing renovation at the hotel. As of June 30, 2013, we are in compliance with the covenants of our mortgage debt.

Senior Unsecured Credit Facility

We are party to a \$200.0 million unsecured credit facility, which expires in January 2017. The maturity date of the facility may be extended for an additional year upon the payment of applicable fees and the satisfaction of certain other customary conditions. We also have the right to increase the amount of the facility up to \$400 million with lender approval. Interest is paid on the periodic advances under the facility at varying rates, based upon LIBOR, plus an agreed upon additional margin amount. The applicable margin is based upon the Company's ratio of net indebtedness to EBITDA, as follows:

[Table of Contents](#)

Ratio of Net Indebtedness to EBITDA	Applicable Margin
Less than 4.00 to 1.00	1.75%
Greater than or equal to 4.00 to 1.00 but less than 5.00 to 1.00	1.90%
Greater than or equal to 5.00 to 1.00 but less than 5.50 to 1.00	2.10%
Greater than or equal to 5.50 to 1.00 but less than 6.00 to 1.00	2.20%
Greater than or equal to 6.00 to 1.00 but less than 6.50 to 1.00	2.50%
Greater than or equal to 6.50 to 1.00	2.75%

In addition to the interest payable on amounts outstanding under the facility, we are required to pay an amount equal to 0.35% of the unused portion of the facility if the unused portion of the facility is greater than 50% or 0.25% if the unused portion of the facility is less than or equal to 50%.

The facility contains various corporate financial covenants. A summary of the most restrictive covenants is as follows:

	Covenant	Actual at June 30, 2013
Maximum leverage ratio (1)	60%	40.8%
Minimum fixed charge coverage ratio (2)	1.50x	2.71x
Minimum tangible net worth (3)	\$1.857 billion	\$2.248 billion
Secured recourse indebtedness (4)	Less than 50% of Total Asset Value	37%

(1) Leverage ratio is total indebtedness, as defined in the credit agreement which includes our commitment on the Times Square development hotel, divided by total asset value, defined in the credit agreement as a) total cash and cash equivalents plus b) the value of our owned hotels based on hotel net operating income divided by a defined capitalization rate, and (c) the book value of the Allerton Loan.

(2) Fixed charge coverage ratio is Adjusted EBITDA, defined in the credit agreement as EBITDA less FF&E reserves, for the most recently ending 12 fiscal months, to fixed charges, defined in the credit agreement as interest expense, all regularly scheduled principal payments and payments on capitalized lease obligations, for the same most recently ending 12 fiscal month period.

(3) Tangible net worth, as defined in the credit agreement, is (i) total gross book value of all assets, exclusive of depreciation and amortization, less intangible assets, total indebtedness, and all other liabilities, plus (ii) 75% of net proceeds from future equity issuances.

(4) After December 31, 2013, the secured recourse indebtedness covenant threshold will decrease to 45% of Total Asset Value, as defined in the credit agreement.

The facility requires us to maintain a specific pool of unencumbered borrowing base properties. The unencumbered borrowing base assets must include a minimum of five properties with an unencumbered borrowing base value, as defined in the credit agreement, of not less than \$250 million. As of June 30, 2013, the unencumbered borrowing base included six properties with a borrowing base value of \$400.7 million.

As of June 30, 2013, we had no borrowings outstanding under the facility and the Company's ratio of net indebtedness to EBITDA was 4.3x. Accordingly, interest on any draws under the facility will be based on LIBOR plus 190 basis points for the next fiscal quarter. We incurred interest and unused credit facility fees on the facility of \$0.2 million for both fiscal quarters ended June 30, 2013 and June 15, 2012, and \$0.5 million and \$1.0 million for the periods from January 1, 2013 to June 30, 2013 and January 1, 2012 to June 15, 2012, respectively.

10. Discontinued Operations

We sold four hotels during 2012 in two separate transactions. In March 2012, we completed the sale of a three-hotel portfolio, which consisted of the Griffin Gate Marriott Resort and Spa, the Renaissance Waverly, and the Renaissance Austin and in October 2012 we completed the sale of the Atlanta Westin North at Perimeter. The operating results of these hotels, as well as the gain on sale on the three-hotel portfolio, are reported in discontinued operations on the accompanying condensed consolidated statements of operations for the fiscal quarter ended June 15, 2012 and the period from January 1, 2012 to June 15, 2012.

The following table summarizes the components of discontinued operations in the condensed consolidated statements of operations for the periods presented (unaudited; in thousands, except per share data):

[Table of Contents](#)

	Quarter Ended	Period from
	June 15, 2012	January 1, 2012 to June 15, 2012
Hotel revenues	\$ 4,596	\$ 27,199
Hotel operating expenses	(3,587)	(20,362)
Operating income	1,009	6,837
Depreciation and amortization	(441)	(898)
Interest expense	—	(2,296)
Gain on sale of hotel properties	—	9,877
Income tax expense	(109)	(340)
Income from discontinued operations	\$ 459	\$ 13,180
Basic and diluted income from discontinued operations per share	\$ 0.00	\$ 0.08

11. Fair Value of Financial Instruments

The fair value of certain financial assets and liabilities and other financial instruments as of June 30, 2013 and December 31, 2012, in thousands, are as follows:

	June 30, 2013		December 31, 2012	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value
Note receivable	\$ 48,661	\$ 64,500	\$ 53,792	\$ 57,000
Debt	\$ 1,064,074	\$ 1,067,556	\$ 988,731	\$ 1,035,450

The fair value of our mortgage debt is a Level 2 measurement under the fair value hierarchy (see Note 2). We estimate the fair value of our mortgage debt by discounting the future cash flows of each instrument at estimated market rates. The fair value of our note receivable is a Level 2 measurement under the fair value hierarchy. We estimate the fair value of our note receivable by discounting the future cash flows related to the note at estimated market rates. The underlying collateral of the note receivable has a fair value greater than the carrying value of the note receivable. The carrying value of our other financial instruments approximate fair value due to the short-term nature of these financial instruments.

12. Commitments and Contingencies

Litigation

We are involved in routine litigation arising out of the ordinary course of business, all of which is expected to be covered by insurance and is not expected to have a material adverse impact on our financial condition or results of operations. We are not involved in any material litigation nor, to our knowledge, is any material litigation pending or threatened against us.

Performance Termination Provisions Under Management Agreements

Our management agreements provide us with termination rights upon a manager's failure to meet certain financial performance criteria and decision not to cure the failure by making a cure payment. The Oak Brook Hills Marriott Resort, Orlando Airport Marriott, and the Hilton Garden Inn Chelsea/New York City each failed its performance test at the end of 2012. With respect to the Oak Brook Hills Marriott Resort, we terminated the management agreement and agreed with the manager that the termination date would be in November 2013. With respect to the Hilton Garden Inn Chelsea/New York City, we amended the management agreement to reduce the base management fee to 2% of gross revenues for the remainder of the term. With respect to the Orlando Airport Marriott, we determined that no action would be taken.

Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations

This report contains certain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. The Company intends such forward-looking statements to be covered by the safe harbor provisions for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995 and includes this statement for purposes of complying with these safe harbor provisions. These forward-looking statements are generally identifiable by use of the words “believe,” “expect,” “intend,” “anticipate,” “estimate,” “project” or similar expressions, whether in the negative or affirmative. Forward-looking statements are based on management’s current expectations and assumptions and are not guarantees of future performance. Factors that may cause actual results to differ materially from current expectations include, but are not limited to, the risks discussed herein and the risk factors discussed from time to time in our periodic filings with the Securities and Exchange Commission, including our Annual Report on Form 10-K for the year ended December 31, 2012 as updated by our Quarterly Reports on Form 10-Q. Accordingly, there is no assurance that the Company’s expectations will be realized. Except as otherwise required by the federal securities laws, the Company disclaims any obligations or undertaking to publicly release any updates or revisions to any forward-looking statement contained in this report to reflect events, circumstances or changes in expectations after the date of this report.

Overview

DiamondRock Hospitality Company is a lodging-focused Maryland corporation operating as a real estate investment trust (REIT). We own a portfolio of 27 premium hotels and resorts that contain 11,590 guest rooms. We also hold the senior note on a mortgage loan secured by an additional hotel and have the right to acquire, upon completion, a hotel under development. As an owner, rather than an operator, of lodging properties, we receive all of the operating profits or losses generated by the hotels after the payment of fees due to hotel managers, which are calculated based on the revenues and profitability of each hotel.

Our vision is to be the premier allocator of capital in the lodging industry. Our mission is to deliver long-term stockholder returns through a combination of dividends and enduring capital appreciation. Our strategy is to utilize disciplined capital allocation and focus on the acquisition, ownership and innovative asset management of high quality lodging properties in North America with superior growth prospects and high barriers to entry.

We differentiate ourselves from our competitors by adhering to three basic principles in executing our strategy:

- focus on high-quality urban and destination resort hotels;
- promote innovative approaches to asset management; and
- maintain a conservative capital structure.

Our portfolio is concentrated in key gateway cities and destination resorts. Each of our hotels is managed by a third party and most are operated under a brand owned by one of the leading global lodging brand companies (Marriott International, Inc. (“Marriott”), Starwood Hotels & Resorts Worldwide, Inc. (“Starwood”) or Hilton Worldwide (“Hilton”).

We critically evaluate each of our hotels to ensure that our portfolio conforms to our vision, supports our mission and corresponds with our strategy. On a regular basis, we analyze our portfolio to identify opportunities to invest capital in certain projects or market non-core assets for sale in order to recycle capital for additional acquisitions, renovation projects, or other capital requirements.

We are committed to a conservative capital structure with prudent leverage. We regularly assess the availability and affordability of capital in order to maximize the Company’s value and minimize enterprise risk. In addition, we are committed to being open and transparent in our communications with stockholders and adopting and following sound corporate governance practices.

High Quality Urban- and Destination Resort-Focused Branded Hotel Real Estate

We own 27 premium hotels and resorts throughout North America and the U.S. Virgin Islands. Our hotels and resorts are primarily categorized as upper upscale as defined by Smith Travel Research and are generally located in high barrier-to-entry markets with multiple demand generators.

Our properties are concentrated in key gateway cities (primarily New York City, Chicago, Boston and Los Angeles) and in destination resort locations (such as the U.S. Virgin Islands and Vail, Colorado). We consider lodging properties located in gateway

Table of Contents

cities and resort destinations to be the most capable of creating dynamic cash flow growth and achieving superior long-term capital appreciation. We also believe that these locations are better insulated from new supply due to relatively high barriers-to-entry, including expensive construction costs and limited development sites.

A core tenet of our strategy is to leverage our relationships with the top internationally-recognized hotel brands. We strongly believe that the premier global hotel brands create significant value as a result of each brand's ability to produce incremental revenue with the result being that branded hotels are able to generate greater profits than similar unbranded hotels. The dominant global hotel brands typically have very strong reservation and reward systems and sales organizations, and most of our hotels are operated under a brand owned by one of the top global lodging brand companies (Marriott, Starwood or Hilton). We are primarily interested in owning hotels that are currently operated under, or can be converted to, a globally-recognized brand.

In addition to leveraging global brands, we are interested in creating relationships with select non-branded boutique hotels in urban markets. We would consider opportunities to acquire other non-branded hotels located in top-tier or unique markets as we believe that the returns on certain of these hotels may be higher than if the hotels were operated under a globally-recognized brand.

Innovative Asset Management

We believe that we create significant value in our portfolio by utilizing our management team's extensive experience and encouraging innovative asset management strategies. Our senior management team has established a broad network of hotel industry contacts and relationships, including relationships with hotel owners, financiers, operators, project managers and contractors and other key industry participants.

We use our broad network of hotel industry contacts and relationships to maximize the value of our hotels. Under the federal income tax rules governing REITs, we are required to engage a hotel manager that is an eligible independent contractor to manage each of our hotels pursuant to a management agreement with one of our subsidiaries. Our philosophy is to negotiate management agreements that give us the right to exert significant influence over the management of our properties, annual budgets and all capital expenditures (all, to the extent permitted under the REIT rules), and then to use those rights to continually monitor and improve the performance of our properties. We cooperatively partner with our hotel managers in an attempt to increase operating results and long-term asset values at our hotels. In addition to working directly with the personnel at our hotels, our senior management team also has long-standing professional relationships with our hotel managers' senior executives, and we work directly with these senior executives to improve the performance of our portfolio.

We continue to explore strategic options to maximize the growth of revenue and profitability. We persist in impressing upon our hotel managers the importance of maximizing hotel revenues and property-level profits. We maintain our practice of working closely with managers to optimize business at our hotels in order to maximize revenue and we remain committed to the objective of maintaining conservative corporate expenses.

We believe we can create significant value in our portfolio through innovative asset management strategies such as rebranding, renovating and repositioning and we engage in a process of regular evaluations of our portfolio in order to determine if there are opportunities to employ these value-add strategies.

Conservative Capital Structure

Our current debt outstanding consists of primarily fixed interest rate mortgage debt with no significant maturities until late 2014 and no outstanding borrowings under our senior unsecured credit facility, which bears interest at what we believe is an attractive floating rate. We prefer that a significant portion of our portfolio remains unencumbered by debt in order to provide maximum balance sheet flexibility. In addition, to the extent that we incur additional debt, our preference is non-recourse secured mortgage debt. We expect that our strategy will enable us to maintain a balance sheet with an appropriate amount of debt throughout all phases of the lodging cycle. We believe that it is not prudent to increase the inherent risk of highly cyclical lodging fundamentals through the use of a highly leveraged capital structure.

We prefer a relatively simple but efficient capital structure. We have not invested in joint ventures and have not issued any operating partnership units or preferred stock. We endeavor to structure our hotel acquisitions so that they will not overly complicate our capital structure; however, we will consider a more complex transaction if we believe that the projected returns to our stockholders will significantly exceed the returns that would otherwise be available.

Key Indicators of Financial Condition and Operating Performance

We use a variety of operating and other information to evaluate the financial condition and operating performance of our business. These key indicators include financial information that is prepared in accordance with U.S. GAAP, as well as other financial information that is not prepared in accordance with U.S. GAAP. In addition, we use other information that may not be financial in nature, including statistical information and comparative data. We use this information to measure the performance of individual hotels, groups of hotels and/or our business as a whole. We periodically compare historical information to our internal budgets as well as industry-wide information. These key indicators include:

- Occupancy percentage;
- Average Daily Rate (or ADR);
- Revenue per Available Room (or RevPAR);
- Earnings Before Interest, Income Taxes, Depreciation and Amortization (or EBITDA) and Adjusted EBITDA; and
- Funds From Operations (or FFO) and Adjusted FFO.

Occupancy, ADR and RevPAR are commonly used measures within the hotel industry to evaluate operating performance. RevPAR, which is calculated as the product of ADR and occupancy percentage, is an important statistic for monitoring operating performance at the individual hotel level and across our business as a whole. We evaluate individual hotel RevPAR performance on an absolute basis with comparisons to budget and prior periods, as well as on a company-wide and regional basis. ADR and RevPAR include only room revenue. Room revenue comprised approximately 69% of total revenues for the period from January 1, 2013 to June 30, 2013 and is dictated by demand, as measured by occupancy percentage, pricing, as measured by ADR, and our available supply of hotel rooms.

Our ADR, occupancy percentage and RevPAR performance may be impacted by macroeconomic factors such as U.S. economic conditions generally, regional and local employment growth, personal income and corporate earnings, office vacancy rates and business relocation decisions, airport and other business and leisure travel, new hotel construction and the pricing strategies of competitors. In addition, our ADR, occupancy percentage and RevPAR performance is dependent on the continued success of our hotels' global brands.

We also use EBITDA, Adjusted EBITDA, FFO and Adjusted FFO as measures of the financial performance of our business. See “Non-GAAP Financial Measures.”

Change in Reporting Periods

Effective January 1, 2013, we report quarterly operating results on a calendar cycle, which is now consistent with all of our hotel managers. We continue to report our annual financial statements on a calendar year basis. Historically, our quarterly operating results have been reported based on a 52-53 week fiscal calendar used by Marriott, the manager of 14 of our hotels. Beginning in 2013, Marriott converted to reporting results based on a 12-month calendar year. Previously, Marriott's fiscal year consisted of thirteen 4-week accounting periods, ended on the Friday closest to December 31, and included twelve weeks of operations for each of the first three quarters and sixteen weeks for the fourth quarter. Accordingly, our first three quarters in 2012 ended on March 23, June 15 and September 7. In contrast, the managers of our other hotels, such as Hilton, Starwood and other independent managers, reported results on a monthly basis. In addition, our 2012 quarterly results of operations include results from our non-Marriott-managed hotels as follows: first quarter (January to February), second quarter (March to May), third quarter (June to August) and fourth quarter (September to December).

The following table illustrates the change in our reporting periods:

[Table of Contents](#)

Quarter	2012 Reporting Calendar		2013 Reporting Calendar	
	1st	Marriott-managed hotels	January 1 - March 23	All Hotels
	Non-Marriott-managed hotels	January 1 - February 29		
2nd	Marriott-managed hotels	March 24 - June 15	All Hotels	April 1 - June 30
	Non-Marriott-managed hotels	March 1 - May 31		
3rd	Marriott-managed hotels	June 16 - September 7	All Hotels	July 1 - September 30
	Non-Marriott-managed hotels	June 1 - August 31		
4th	Marriott-managed hotels	September 8 - December 31	All Hotels	October 1 - December 31
	Non-Marriott-managed hotels	September 1 - December 31		

We will not restate the previously filed 2012 quarterly financial statements because Marriott did not provide us operating results for 2012 on a daily basis. Because we rely upon our hotel managers for the hotel operating results used in our financial statements, the unavailability of this information on a calendar quarter basis for 2012 made restating our financial statements unfeasible. Accordingly, our 2012 reported quarterly operating results are not comparable to our 2013 quarterly operating results.

Our Hotels

The following table sets forth certain operating information for the period from January 1, 2013 to June 30, 2013 for each of our hotels.

Property	Location	Number of Rooms	Occupancy (%)	ADR(\$)	RevPAR(\$)	% Change from 2012 Pro Forma RevPAR (1)

[Table of Contents](#)

- (1) 2012 Pro Forma RevPAR reflects the operating results of our Marriott-managed hotels from January 1, 2012 to June 15, 2012 and the operating results of all other hotels, including our 2012 acquisitions, from January 1, 2012 to June 30, 2012.

2013 Highlights

Hotel Financings. We raised \$102 million through two separate secured financings during the first quarter. The financings include a \$31 million mortgage loan secured by The Lodge at Sonoma Renaissance Resort & Spa with a term of ten years and a fixed interest rate of 3.96% and a \$71 million mortgage loan secured by the Westin San Diego with a term of ten years and a fixed interest rate of 3.94%. Principal repayments on each loan are based on a 30-year amortization schedule. The loans are property-specific and non-recourse to the Company subject to standard exceptions.

Allerton Loan. We closed on the settlement of the bankruptcy and related litigation involving our senior mortgage loan secured by the Allerton Hotel, receiving a \$5.0 million principal payment and a new \$66.0 million mortgage loan.

Chief Operating Officer. John L. Williams retired from his position as President and Chief Operating Officer of the Company effective May 1, 2013. In connection with his retirement, we recorded a severance cost of approximately \$3.1 million during the first quarter, which is reflected in corporate expenses on the accompanying condensed consolidated statement of operations for the period from January 1, 2013 to June 30, 2013. On April 1, 2013, Robert Tanenbaum joined the Company as Executive Vice President, Asset Management and was appointed Chief Operating Officer effective May 1, 2013.

Results of Operations

Comparison of the Quarter Ended June 30, 2013 to the Quarter Ended June 15, 2012 (As Adjusted, except where otherwise noted)

Our results of operations for the quarter ended June 30, 2013 are not comparable to the fiscal quarter ended June 15, 2012 due to the change in our reporting periods as discussed above. However, to enable investors to better evaluate our performance over comparable periods, we have presented certain 2012 results and operating statistics on a comparable basis of reporting, which we refer to as “2012 As Adjusted” results. The financial information for the 2012 As Adjusted quarter presented herein was calculated based on our actual reported operating results for the quarter ended June 15, 2012 period adjusted to exclude revenues and operating expenses for the full calendar month of March 2012 for the 14 hotels not operated by Marriott domestically that previously were included in our results of operations for the second quarter of 2012 and to include the revenues and operating expenses for the full calendar month of June 2012 for the same 14 hotels as these results were originally included in our results of operations for the third quarter of 2012 .

	Revenues	Hotel Operating Expenses
	(in millions)	
Quarter ended June 15, 2012 (As Reported)	\$ 181.0	\$ 130.8
Less: March 2012 operations for non-Marriott-managed hotels	(28.6)	(20.1)
Add: June 2012 operations for non-Marriott-managed hotels	30.6	20.2
Quarter ended June 15, 2012 (As Adjusted)	<u>\$ 183.0</u>	<u>\$ 130.9</u>

Our results of operations for the quarter ended June 30, 2013 were negatively impacted by the renovations at three of our New York City hotels, the Lexington Hotel New York, Courtyard Manhattan/Midtown East, and Courtyard Fifth Avenue. The renovation disruption was largely driven by displaced occupancy from the rooms out of service, as approximately 31,400 room nights were displaced during the quarter. In addition, the Lexington Hotel New York was further impacted by an electrical incident that caused the hotel to close for six days due to a loss of electrical power.

Revenue. Revenue consists primarily of the room, food and beverage and other operating revenues from our hotels, as follows (in millions):

[Table of Contents](#)

	Quarter Ended		% Change
	June 30, 2013	June 15, 2012 As Adjusted	
Rooms	\$ 154.5	\$ 125.2	23.4%
Food and beverage	57.0	47.2	20.8%
Other	12.7	10.6	19.8%
Total revenues	\$ 224.2	\$ 183.0	22.5%

Our total revenues increased \$41.2 million from the quarter ended June 15, 2012 As Adjusted, which includes \$28.4 million of revenues contributed by the five hotels we acquired during 2012. Excluding the impact of our 2012 acquisitions, our total revenues increased \$12.8 million, or 7.0 percent. The following pro-forma key hotel operating statistics for the quarters ended June 30, 2013 and June 15, 2012 As Adjusted include the prior year operating statistics for the comparable period to our 2013 ownership period.

	Quarter Ended		% Change
	June 30, 2013	June 15, 2012 As Adjusted	
Occupancy %	79.2%	79.9%	(0.7) percentage points
ADR	\$ 185.29	\$ 180.33	2.8%
RevPAR	\$ 146.84	\$ 144.11	1.9%

The increase in RevPAR is driven by a 2.8% growth in ADR, slightly offset by a 0.7 percentage point decrease in occupancy. The decrease in occupancy is primarily due to the renovations at the Lexington Hotel New York, Courtyard Manhattan/Midtown East, and Courtyard Fifth Avenue, which were in process during the second quarter. Excluding the displaced rooms from these renovations, occupancy increased 2.5 percentage points.

Food and beverage revenues increased \$9.8 million from the quarter ended June 15, 2012 As Adjusted, which includes \$3.9 million of food and beverage revenues contributed by the five hotels we acquired during 2012. The remaining increase of \$5.9 million at our comparable hotels was primarily driven by both higher banquet revenue and outlet revenue. The increase in banquet revenue was a direct result of a strong increase in group business during the second quarter 2013 compared with the second quarter 2012. Other revenues, which primarily represent spa, golf, parking and attrition and cancellation fees, increased \$2.1 million, which includes \$1.5 million of other revenues contributed by the five hotels we acquired during 2012.

Hotel operating expenses. The operating expenses consist of the following (in millions):

	Quarter Ended		% Change
	June 30, 2013	June 15, 2012 As Adjusted	
Rooms departmental expenses	\$ 39.2	\$ 32.9	19.1%
Food and beverage departmental expenses	38.1	32.4	17.6
Other departmental expenses	6.0	4.6	30.4
General and administrative	16.4	14.2	15.5
Utilities	7.2	5.7	26.3
Repairs and maintenance	9.6	7.6	26.3
Sales and marketing	17.3	13.4	29.1
Base management fees	5.4	4.9	10.2
Incentive management fees	2.0	1.7	17.6
Property taxes	11.1	7.6	46.1
Other fixed charges	3.2	2.4	33.3
Ground rent—Contractual	2.1	2.0	5.0
Ground rent—Non-cash	1.6	1.5	6.7
Total hotel operating expenses	\$ 159.2	\$ 130.9	21.6%

[Table of Contents](#)

Our hotel operating expenses increased \$28.3 million, or 21.6 percent, from the quarter ended June 15, 2012 As Adjusted, which includes \$17.7 million of hotel operating expenses contributed by the five hotels we acquired during 2012. The remaining increase of \$10.6 million, or 8.1 percent, at our comparable hotels is primarily due to higher departmental costs, driven primarily by higher wages and benefits, as well as increased support costs. Property taxes at our comparable hotels increased approximately \$1.7 million, which is primarily related to the Chicago Marriott and Chicago Conrad as a result of a significant increase in the county property tax rates.

Depreciation and amortization. Depreciation and amortization is recorded on our hotel buildings over 40 years for the periods subsequent to acquisition. Depreciable lives of hotel furniture, fixtures and equipment are estimated as the time period between the acquisition date and the date that the hotel furniture, fixtures and equipment will be replaced. Our depreciation and amortization expense increased \$7.1 million from the quarter ended June 15, 2012 (as reported). The increase is primarily due to \$5.2 million in depreciation expense from the five hotels acquired in 2012 and seven additional days in the quarter ended June 30, 2013 as compared to the quarter ended June 15, 2012 for our comparable hotels.

Corporate expenses. Corporate expenses principally consist of employee-related costs, including base payroll, bonus and restricted stock. Corporate expenses also include corporate operating costs, professional fees and directors' fees. Our corporate expenses increased \$0.3 million, from \$5.0 million for the quarter ended June 15, 2012 (as reported) to \$5.3 million for the quarter ended June 30, 2013. The increase in corporate expenses is due primarily to increased employee-related costs.

Interest expense. Our interest expense was \$14.5 million and \$12.5 million for the quarters ended June 30, 2013 and June 15, 2012 (as reported), respectively, and is comprised of the following (in millions):

	Quarter Ended	
	June 30, 2013	June 15, 2012
Mortgage debt interest	\$ 14.0	\$ 11.4
Credit facility interest and unused fees	0.2	0.2
Amortization of deferred financing costs and debt premium	0.7	0.7
Capitalized interest	(0.3)	(0.3)
Interest rate cap fair value adjustment	(0.1)	0.5
	<u>\$ 14.5</u>	<u>\$ 12.5</u>

The increase in interest expense for the quarter ended June 30, 2013 as compared to the quarter ended June 15, 2012 is primarily due to the three new mortgage loans we entered into in late 2012 and early 2013. As of June 30, 2013, we had property-specific mortgage debt outstanding on 14 of our hotels. Most of our mortgage debt is fixed-rate secured debt, bearing interest at rates ranging from 3.94 percent to 8.81 percent per year. The mortgage loan secured by the Lexington Hotel New York bears interest at a floating rate based on one-month LIBOR plus 300 basis points. As of June 30, 2013, we had no outstanding borrowings under our credit facility. Our weighted-average interest rate on all debt as of June 30, 2013 was 5.24 percent.

Interest income. Interest income increased \$1.5 million from the quarter ended June 15, 2012 (as reported) to the quarter ended June 30, 2013. The increase is primarily due to the restructuring of the Allerton Loan for which we commenced to recognize interest income during the first quarter 2013.

Discontinued operations. Income from discontinued operations of \$0.5 million for the quarter ended June 15, 2012 (as reported) represents the results of operations for the Atlanta Westin North at Perimeter which was sold in October 2012.

Income taxes. We recorded income tax expense on continuing operations of \$4.6 million and \$1.7 million for the quarters ended June 30, 2013 and June 15, 2012 (as reported), respectively. The second quarter 2013 income tax expense includes \$4.4 million of income tax expense incurred on the \$10.8 million pre-tax income from continuing operations of our taxable REIT subsidiary, or TRS, \$0.1 million of foreign income tax expense incurred on the \$0.7 million pre-tax income of the TRS that owns Frenchman's Reef, and \$0.1 million of state franchise taxes. The second quarter 2012 income tax expense includes \$1.3 million of income tax expense incurred on the \$3.0 million pre-tax income from continuing operations of our TRS for the quarter ended June 15, 2012, \$0.4 million of foreign income tax expense incurred on the \$2.1 million pre-tax income of the TRS that owns Frenchman's Reef.

Table of Contents

Comparison of the Period from January 1, 2013 to June 30, 2013 to the Period from January 1, 2012 to June 15, 2012 (As Adjusted, except where otherwise noted)

Our results of operations for the period from January 1, 2013 to June 30, 2013 are not comparable to the period from January 1, 2012 to June 15, 2012 due to the change in our reporting periods as discussed above. However, to enable investors to better evaluate our performance over comparable periods, we have presented certain 2012 results and operating statistics on a comparable basis of reporting, which we refer to as “2012 As Adjusted” results. The financial information for the period from January 1, 2012 to June 15, 2012 As Adjusted presented herein was calculated based on our actual reported operating results for the period from January 1, 2012 to June 15, 2012 adjusted to include the revenues and operating expenses for the 14 hotels not operated by Marriott domestically for the full calendar month of June 2012 that previously were excluded from our results of operations for the period from January 1, 2012 to June 15, 2012.

	Revenues	Hotel Operating Expenses
	(in millions)	
Period from January 1, 2012 to June 15, 2012 (As Reported)	\$ 299.4	\$ 229.3
Add: June 2012 operations for Non-Marriott-managed hotels	30.6	20.2
Period from January 1, 2012 to June 15, 2012 (As Adjusted)	<u>\$ 330.0</u>	<u>\$ 249.5</u>

Our results of operations for the period from January 1, 2013 to June 30, 2013 were negatively impacted by the renovations at three of our New York City hotels, the Lexington Hotel New York, Courtyard Manhattan/Midtown East, and Courtyard Fifth Avenue. The renovation disruption was largely driven by displaced occupancy from the rooms out of service, as approximately 55,300 room nights were displaced in 2013 year to date. In addition, the Lexington Hotel New York was further impacted by an electrical incident that caused the hotel to close for six days due to a loss of electrical power.

Revenue. Revenue consists primarily of the room, food and beverage and other operating revenues from our hotels, as follows (in millions):

	Period from		
	January 1, 2013 to June 30, 2013	January 1, 2012 to June 15, 2012 As Adjusted	% Change
Rooms	\$ 278.8	\$ 227.1	22.8%
Food and beverage	102.2	84.1	21.5%
Other	24.5	18.8	30.3%
Total revenues	<u>\$ 405.5</u>	<u>\$ 330.0</u>	<u>22.9%</u>

Our total revenues increased \$75.5 million from the period from January 1, 2012 to June 15, 2012 As Adjusted, which includes \$50.0 million of revenues contributed by the five hotels we acquired during 2012. Excluding the impact of our 2012 acquisitions, our total revenues increased \$25.5 million, or 7.7 percent. The following pro-forma key hotel operating statistics for the periods from January 1, 2013 to June 30, 2013 and January 1, 2012 to June 15, 2012 As Adjusted include the prior year operating statistics for the comparable period to our 2013 ownership period.

	Period from		
	January 1, 2013 to June 30, 2013	January 1, 2012 to June 15, 2012 As Adjusted	% Change
Occupancy %	74.9%	76.3%	(1.4) percentage points
ADR	\$ 177.74	\$ 171.85	3.4%
RevPAR	\$ 133.19	\$ 131.14	1.6%

The increase in RevPAR is driven by a 3.4% growth in ADR, offset by a 1.4 percentage point decrease in occupancy. The decrease in occupancy is primarily due to the renovations at the Lexington Hotel New York, Courtyard Manhattan/Midtown East, and Courtyard Fifth Avenue, which commenced in early 2013. Excluding the displaced rooms from these renovations, occupancy increased 1.9 percentage points.

[Table of Contents](#)

Food and beverage revenues increased \$18.1 million from the the period from January 1, 2012 to June 15, 2012 As Adjusted, which includes \$7.1 million of food and beverage revenues contributed by the five hotels we acquired during 2012. The remaining increase of \$11.0 million at our comparable hotels was primarily driven by both higher banquet revenue and outlet revenue. Other revenues, which primarily represent spa, golf, parking and attrition and cancellation fees, increased \$5.7 million, which includes \$2.9 million of other revenues contributed by the five hotels we acquired during 2012. The remaining increase of \$2.8 million at our comparable hotels was primarily driven by the implementation of a resort fee at Frenchman's Reef as well as attrition and cancellation fees.

Hotel operating expenses. The operating expenses consist of the following (in millions):

	Period from		%
	January 1, 2013 to June 30, 2013	January 1, 2012 to June 15, 2012 As Adjusted	
Rooms departmental expenses	\$ 75.6	\$ 62.3	21.3%
Food and beverage departmental expenses	71.9	60.5	18.8
Other departmental expenses	11.7	8.9	31.5
General and administrative	31.9	27.3	16.8
Utilities	14.3	11.9	20.2
Repairs and maintenance	18.8	14.9	26.2
Sales and marketing	33.2	25.8	28.7
Base management fees	9.7	8.0	21.3
Incentive management fees	2.5	1.8	38.9
Property taxes	20.9	15.4	35.7
Other fixed charges	5.8	5.7	1.8
Ground rent—Contractual	4.2	4.0	5.0
Ground rent—Non-cash	3.3	3.0	10.0
Total hotel operating expenses	<u>\$ 303.8</u>	<u>\$ 249.5</u>	<u>21.8%</u>

Our hotel operating expenses increased \$54.3 million, or 21.8 percent, from the period from January 1, 2012 to June 15, 2012 As Adjusted to the period from January 1, 2013 to June 30, 2013, which includes \$33.8 million of hotel operating expenses contributed by the five hotels we acquired during 2012. The remaining increase of \$20.5 million, or 8.2 percent, at our comparable hotels is primarily due to higher departmental costs, driven primarily by higher wages and benefits, as well as increased support costs, specifically repairs and maintenance and administrative costs. Property taxes at our comparable hotels increased approximately \$2.0 million, which is primarily related to the Chicago Marriott and Chicago Conrad as a result of a significant increase in the county property tax rates.

Depreciation and amortization. Depreciation and amortization is recorded on our hotel buildings over 40 years for the periods subsequent to acquisition. Depreciable lives of hotel furniture, fixtures and equipment are estimated as the time period between the acquisition date and the date that the hotel furniture, fixtures and equipment will be replaced. Our depreciation and amortization expense increased \$13.8 million from the period from January 1, 2012 to June 15, 2012 (as reported). The increase is primarily due to \$10.3 million in depreciation expense from the five hotels acquired in 2012 and seven additional days in the period from January 1, 2013 to June 30, 2013 as compared to the period from January 1, 2012 to June 15, 2012 for our comparable hotels.

Corporate expenses. Corporate expenses principally consist of employee-related costs, including base payroll, bonus and restricted stock. Corporate expenses also include corporate operating costs, professional fees and directors' fees. Our corporate expenses increased \$3.6 million, from \$9.5 million for the period from January 1, 2012 to June 15, 2012 (as reported) to \$13.1 million for the period from January 1, 2013 to June 30, 2013. The increase in corporate expenses is due primarily to \$3.1 million in severance costs incurred in connection with the retirement of our President and Chief Operating Officer in the first quarter of 2013 as well as increased employee-related costs, partially offset by lower legal fees as a result of the settlement of the Allerton bankruptcy proceedings and related litigation in early 2013.

Interest expense. Our interest expense was \$28.0 million and \$24.0 million for the periods from January 1, 2013 to June 30, 2013 and January 1, 2012 to June 15, 2012 (as reported), respectively, and is comprised of the following (in millions):

	Period from	
	January 1, 2013 to June 30, 2013	January 1, 2012 to June 15, 2012
Mortgage debt interest	\$ 26.7	\$ 21.8
Credit facility interest and unused fees	0.5	1.0
Amortization of deferred financing costs and debt premium	1.4	1.1
Capitalized interest	(0.7)	(0.5)
Interest rate cap fair value adjustment	0.1	0.6
	\$ 28.0	\$ 24.0

The increase in interest expense for the period from January 1, 2013 to June 30, 2013 as compared to the period from January 1, 2012 to June 15, 2012 (as reported) is primarily due to three new mortgage loans we entered into in late 2012 and early 2013.

Interest income. Interest income increased \$2.7 million from the period from January 1, 2012 to June 15, 2012 (as reported) to the period from January 1, 2013 to June 30, 2013. The increase is primarily due to the restructuring of the Allerton Loan for which we commenced to recognize interest income beginning in the first quarter 2013.

Discontinued operations. Income from discontinued operations of \$13.2 million for the period from January 1, 2012 to June 15, 2012 (as reported) represents the results of operations and gain on sale of a three-hotel portfolio sold in March 2012 and the results of operations for the Atlanta Westin North at Perimeter which was sold in October 2012.

Income taxes. We recorded an income tax benefit on continuing operations of \$1.5 million for the period from January 1, 2013 to June 30, 2013 and an income tax benefit on continuing operations of \$4.1 million for the period from January 1, 2012 to June 15, 2012 (as reported). The income tax benefit for the period from January 1, 2013 to June 30, 2013 includes \$2.6 million of income tax benefit incurred on the \$6.4 million pre-tax loss from continuing operations of our taxable REIT subsidiary, or TRS, offset by \$1.0 million of foreign income tax expense incurred on the \$4.9 million pre-tax income of the TRS that owns Frenchman's Reef, and further offset by \$0.1 million of state franchise taxes. The income tax benefit for the period from January 1, 2012 to June 15, 2012 includes \$4.6 million of income tax benefit incurred on the \$11.7 million pre-tax loss from continuing operations of our TRS, offset by \$0.5 million of foreign income tax expense incurred on the \$3.4 million pre-tax income of the TRS that owns Frenchman's Reef.

Liquidity and Capital Resources

Our short-term liquidity requirements consist primarily of funds necessary to fund distributions to our stockholders to maintain our REIT status as well as to pay for operating expenses and other expenditures directly associated with our hotels, including the funding of our significant \$140 million capital expenditure program for 2013 and early 2014, funding of the renovation escrow account, and scheduled debt payments of interest and principal. We currently expect that our available cash flows, which are generally provided through net cash provided by hotel operations, existing cash balances and, if necessary, short-term borrowings under our credit facility, will be sufficient to meet our short-term liquidity requirements.

Some of our mortgage debt agreements contain “cash trap” provisions that are triggered when the hotel’s operating results fall below a certain debt service coverage ratio. When these provisions are triggered, all of the excess cash flow generated by the hotel is deposited directly into cash management accounts for the benefit of our lenders until a specified debt service coverage ratio is reached and maintained for a certain period of time. Such provisions do not allow the lender the right to accelerate repayment of the underlying debt. As of June 30, 2013, the cash trap provision was triggered under our Lexington Hotel New York mortgage as a result of the ongoing renovation at the hotel.

Our long-term liquidity requirements consist primarily of funds necessary to pay for the costs of acquiring additional hotels, renovations, expansions and other capital expenditures that need to be made periodically to our hotels, scheduled debt payments and making distributions to our stockholders. We expect to meet our long-term liquidity requirements through various sources of capital, including cash provided by operations, borrowings, issuances of additional equity or debt securities and proceeds from property dispositions. Our ability to incur additional debt is dependent upon a number of factors, including the state of the credit markets, our degree of leverage, the value of our unencumbered assets and borrowing restrictions imposed by existing lenders. Our ability to raise capital through the issuance of additional equity and/or debt securities is also dependent on a number of factors including the current state of the capital markets, investor sentiment and intended use of proceeds. We may need to raise additional capital if we identify acquisition opportunities that meet our investment objectives.

Our Financing Strategy

Since our formation in 2004, we have been committed to a conservative capital structure with prudent leverage. The majority of our outstanding debt is fixed interest rate mortgage debt with no significant maturities until late 2014. We have a preference to maintain a significant portion of our portfolio as unencumbered assets in order to provide balance sheet flexibility. In addition, to the extent that we incur additional debt, our preference is non-recourse mortgage debt. This strategy enables us to maintain a balance sheet with a prudent amount of debt. We believe that it is not prudent to increase the inherent risk of a highly cyclical business by maintaining a highly leveraged capital structure.

We prefer a relatively simple but efficient capital structure. We have not invested in joint ventures and have not issued any operating partnership units or preferred stock. We endeavor to structure our hotel acquisitions so that they will not overly complicate our capital structure; however, we will consider a more complex transaction if we believe that the projected returns to our stockholders will significantly exceed the returns that would otherwise be available.

We believe that we maintain a reasonable amount of debt. As of June 30, 2013, we had \$1.1 billion of debt outstanding with a weighted average interest rate of 5.24% and a weighted average maturity date of approximately 3.9 years. We maintain one of the most durable and lowest levered balance sheets among our lodging REIT peers. We maintain balance sheet flexibility with limited near term debt maturities, full capacity on our \$200 million senior unsecured credit facility and 13 of our 27 hotels unencumbered by mortgage debt. We remain committed to our core strategy of maintaining a simple capital structure with conservative leverage.

Short-Term Borrowings

Other than borrowings under our senior unsecured credit facility, we do not utilize short-term borrowings to meet liquidity requirements. As of June 30, 2013, we had no outstanding borrowings under our senior unsecured credit facility.

Senior Unsecured Credit Facility

We are party to a five-year, \$200.0 million unsecured credit facility expiring in January 2017. The maturity date of the facility may be extended for an additional year upon the payment of applicable fees and the satisfaction of certain other customary conditions. We also have the right to increase the amount of the facility up to \$400 million with lender approval. Interest is paid on the periodic advances under the facility at varying rates, based upon LIBOR, plus an agreed upon additional margin amount. The applicable margin is based upon the Company's ratio of net indebtedness to EBITDA, as follows:

Ratio of Net Indebtedness to EBITDA	Applicable Margin
Less than 4.00 to 1.00	1.75%
Greater than or equal to 4.00 to 1.00 but less than 5.00 to 1.00	1.90%
Greater than or equal to 5.00 to 1.00 but less than 5.50 to 1.00	2.10%
Greater than or equal to 5.50 to 1.00 but less than 6.00 to 1.00	2.20%
Greater than or equal to 6.00 to 1.00 but less than 6.50 to 1.00	2.50%
Greater than or equal to 6.50 to 1.00	2.75%

In addition to the interest payable on amounts outstanding under the facility, we are required to pay an amount equal to 0.35% of the unused portion of the facility if the unused portion of the facility is greater than 50% or 0.25% if the unused portion of the facility is less than or equal to 50%.

The facility contains various corporate financial covenants. A summary of the most restrictive covenants is as follows:

[Table of Contents](#)

	Covenant	Actual at June 30, 2013
Maximum leverage ratio (1)	60%	40.8%
Minimum fixed charge coverage ratio (2)	1.50x	2.71x
Minimum tangible net worth (3)	\$1.857 billion	\$2.248 billion
Secured recourse indebtedness (4)	Less than 50% of Total Asset Value	37%

- (1) Leverage ratio is total indebtedness, as defined in the credit agreement and which includes our commitment on the Times Square development hotel, divided by total asset value, which is defined in the credit agreement as (a) total cash and cash equivalents plus (b) the value of our owned hotels based on hotel net operating income divided by a defined capitalization rate, and (c) the book value of the Allerton Loan.
- (2) Fixed charge coverage ratio is Adjusted EBITDA, which is defined in the credit agreement as EBITDA less FF&E reserves, for the most recently ending 12 fiscal months, to fixed charges, which is defined in the credit agreement as interest expense, all regularly scheduled principal payments and payments on capitalized lease obligations, for the same most recently ending 12 fiscal month period.
- (3) Tangible net worth, as defined in the credit agreement, is (i) total gross book value of all assets, exclusive of depreciation and amortization, less intangible assets, total indebtedness, and all other liabilities, plus (ii) 75% of net proceeds from future equity issuances.
- (4) After December 31, 2013, the secured recourse indebtedness covenant threshold will decrease to 45% of Total Asset Value, as defined in the credit agreement.

The facility requires us to maintain a specific pool of unencumbered borrowing base properties. The unencumbered borrowing base must include a minimum of five properties with an unencumbered borrowing base value, as defined in the credit agreement, of not less than \$250 million. As of June 30, 2013, the unencumbered borrowing base included 6 properties with a borrowing base value of \$400.7 million.

As of June 30, 2013, we had no borrowings outstanding under the facility and the Company's ratio of net indebtedness to EBITDA was 4.3x. Accordingly, interest on any draws under the facility will be based on LIBOR plus 190 basis points for the next fiscal quarter. We incurred interest and unused credit facility fees on the facility of \$0.2 million for both our fiscal quarters ended June 30, 2013 and June 15, 2012, and \$0.5 million and \$1.0 million for the periods from January 1, 2013 to June 30, 2013 and January 1, 2012 to June 15, 2012, respectively.

Sources and Uses of Cash

Our principal sources of cash are net cash flow from hotel operations and borrowings under mortgage debt and our credit facility. Our principal uses of cash are acquisitions of hotel properties, debt service, capital expenditures, operating costs, corporate expenses and dividends. As of June 30, 2013, we had \$54.3 million of unrestricted corporate cash, \$88.1 million of restricted cash, and \$200 million of borrowing capacity under our credit facility.

Our net cash provided by operations was \$53.0 million for the period from January 1, 2013 to June 30, 2013. Our cash from operations generally consists of the net cash flow from hotel operations offset by cash paid for corporate expenses, funding of lender escrow reserves and other working capital changes.

Our net cash used in investing activities was \$49.0 million for the period from January 1, 2013 to June 30, 2013 primarily as a result of capital expenditures at our hotels of \$42.6 million and funding of a lender-held property improvement plan reserve for the Westin San Diego of \$11.7 million, offset by \$6.6 million of principal payments on the Allerton Loan.

Our net cash provided by financing activities was \$40.6 million for the period from January 1, 2013 to June 30, 2013 and consisted primarily of \$102.0 million of loan proceeds from the financings of The Lodge at Sonoma and the Westin San Diego, offset by net repayments on our senior unsecured credit facility of \$20 million, \$32.4 million of dividend payments, \$2.0 million paid to repurchase shares upon the vesting of restricted stock for the payment of tax withholding obligations, as well as \$6.5 million of scheduled mortgage debt principal payments.

We currently anticipate our significant sources of cash for the remainder of the year ending December 31, 2013 will be from existing cash on hand and the net cash flow from hotel operations. We expect our estimated uses of cash for the year ending December 31, 2013 will be comprised of capital expenditures, as more fully described below, regularly scheduled debt service payments, dividends, a \$5.0 million deposit on the hotel under development, and corporate expenses.

Dividend Policy

We intend to distribute to our stockholders dividends at least equal to our REIT taxable income so as to avoid paying corporate income tax and excise tax on our earnings (other than the earnings of our TRS and TRS lessees, which are all subject to tax at regular corporate rates) and to qualify for the tax benefits afforded to REITs under the Internal Revenue Code of 1986, as amended, or the Code. In order to qualify as a REIT under the Code, we generally must make distributions to our stockholders each year in an amount equal to at least:

- 90% of our REIT taxable income determined without regard to the dividends paid deduction and excluding net capital gains, plus
- 90% of the excess of our net income from foreclosure property over the tax imposed on such income by the Code, minus
- any excess non-cash income.

The timing and frequency of distributions will be authorized by our board of directors and declared by us based upon a variety of factors, including our financial performance, restrictions under applicable law and our current and future loan agreements, our debt service requirements, our capital expenditure requirements, the requirements for qualification as a REIT under the Code and other factors that our board of directors may deem relevant from time to time.

We have paid the following dividends to holders of our common stock during 2013 as follows:

Payment Date	Record Date	Dividend per Share
January 10, 2013	December 31, 2012	\$0.080
April 12, 2013	March 28, 2013	\$0.085
July 11, 2013	June 28, 2013	\$ 0.085

Capital Expenditures

The management and franchise agreements for each of our hotels provide for the establishment of separate property improvement funds to cover, among other things, the cost of replacing and repairing furniture, fixtures and equipment at our hotels and other routine capital expenditures. Contributions to the property improvement fund are calculated as a percentage of hotel revenues. In addition, we may be required to pay for the cost of certain additional improvements that are not permitted to be funded from the property improvement fund under the applicable management or franchise agreement. As of June 30, 2013, we have set aside \$74.2 million for capital projects in property improvement funds and lender-held escrows, which are included in restricted cash.

During 2013, we commenced or plan to commence approximately \$140 million of capital improvements, which will be funded from existing corporate cash and cash flows from hotel operations, as well as from existing reserves. We spent approximately \$42.6 million on capital improvements during the period from January 1, 2013 to June 30, 2013. Our significant projects in the capital expenditure program include the following:

- **Lexington Hotel New York.** We made significant progress on the comprehensive renovation of the Lexington Hotel during the second quarter, essentially completing the hotel's public spaces and returning approximately 365 renovated rooms to available inventory, with the balance of the rooms all under renovation. The remaining rooms will be substantially complete by the end of the third quarter and the hotel is now integrated with the Marriott reservation system. We will create 15 new rooms at the hotel by splitting several underutilized junior suites into two new rooms. After renovation, the hotel will have 725 guestrooms. The total estimated renovation cost is expected to be approximately \$46 million, after including the cost of the new rooms.
- **Manhattan Courtyards.** We completed the renovation of the guest rooms, corridors and guest bathrooms at the Courtyard Manhattan/Midtown East and Courtyard Manhattan/Fifth Avenue. The renovation scope at the Courtyard Midtown East also included the public space and the addition of five new guest rooms.
- **Westin Washington D.C.** A comprehensive \$16.5 million renovation is expected to start during the fourth quarter of 2013 and to be completed in early 2014. After renovation, the hotel will be well repositioned to regain market share and capture higher-rated business, leisure and group customers. The renovation scope will enhance every aspect of the guest experience, including the guest rooms, corridors, meeting space and the lobby.

[Table of Contents](#)

- **Westin San Diego.** A comprehensive \$14.5 million renovation is expected to start during the fourth quarter of 2013 and to be completed in early 2014. The renovation scope will include the guest rooms, corridors, lobby, public areas, and meeting space at the hotel.
- **Hilton Minneapolis:** A \$13.0 million renovation of the guest rooms, guest bathrooms and corridors is expected to commence in late 2013.
- **Hilton Boston Downtown:** A \$7.0 million renovation of the guest rooms, corridors, public areas, and meeting space at the hotel is expected to commence during the fourth quarter of 2013 and be completed in early 2014. We are also evaluating the feasibility of converting more than 20 of 66 current suites into additional rooms at the hotel.
- **Hilton Burlington:** A \$6.0 million renovation of the corridors and guest rooms at the hotel is expected to commence during the fourth quarter of 2013 and be completed in early 2014.

Off-Balance Sheet Arrangements

We have no off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that is material to investors.

Non-GAAP Financial Measures

We use the following non-GAAP financial measures that we believe are useful to investors as key measures of our operating performance: EBITDA, Adjusted EBITDA, FFO and Adjusted FFO. These measures should not be considered in isolation or as a substitute for measures of performance in accordance with GAAP. EBITDA, Adjusted EBITDA, FFO and Adjusted FFO, as calculated by us, may not be comparable to other companies that do not define such terms exactly as the Company.

EBITDA and FFO

EBITDA represents net income excluding: (1) interest expense; (2) provision for income taxes, including income taxes applicable to sale of assets; and (3) depreciation and amortization. We believe EBITDA is useful to an investor in evaluating our operating performance because it helps investors evaluate and compare the results of our operations from period to period by removing the impact of our capital structure (primarily interest expense) and our asset base (primarily depreciation and amortization) from our operating results. In addition, covenants included in our indebtedness use EBITDA as a measure of financial compliance. We also use EBITDA as one measure in determining the value of hotel acquisitions and dispositions.

The Company computes FFO in accordance with standards established by the National Association of Real Estate Investment Trusts (NAREIT), which defines FFO as net income determined in accordance with GAAP, excluding gains or losses from sales of properties and impairment losses, plus depreciation and amortization. The Company believes that the presentation of FFO provides useful information to investors regarding its operating performance because it is a measure of the Company's operations without regard to specified non-cash items, such as real estate depreciation and amortization and gain or loss on sale of assets. The Company also uses FFO as one measure in assessing its results.

Adjustments to EBITDA and FFO

We adjust EBITDA and FFO when evaluating our performance because we believe that the exclusion of certain additional recurring and non-recurring items described below provides useful supplemental information to investors regarding our ongoing operating performance and that the presentation of Adjusted EBITDA and Adjusted FFO, when combined with GAAP net income, EBITDA and FFO, is beneficial to an investor's complete understanding of our operating performance. We adjust EBITDA and FFO for the following items:

- **Non-Cash Ground Rent:** We exclude the non-cash expense incurred from the straight line recognition of rent from our ground lease obligations and the non-cash amortization of our favorable lease assets.
- **Non-Cash Amortization of Favorable and Unfavorable Contracts:** We exclude the non-cash amortization of the favorable management contract assets recorded in conjunction with our acquisitions of the Westin Washington D.C. City Center, Westin San Diego, and Hilton Burlington and the non-cash amortization of the unfavorable contract liabilities recorded in conjunction with our acquisitions of the Bethesda Marriott Suites, the Chicago Marriott Downtown, the Renaissance Charleston and the Lexington Hotel New York. The amortization of the favorable and unfavorable contracts does not reflect the underlying operating performance of our hotels.
- **Cumulative Effect of a Change in Accounting Principle:** Infrequently, the Financial Accounting Standards Board (FASB) promulgates new accounting standards that require the consolidated statement of operations to reflect the cumulative

Table of Contents

effect of a change in accounting principle. We exclude the effect of these one-time adjustments because they do not reflect its actual performance for that period.

- *Gains from Early Extinguishment of Debt:* We exclude the effect of gains recorded on the early extinguishment of debt because we believe they do not accurately reflect the underlying performance of the Company.
- *Acquisition Costs:* We exclude acquisition transaction costs expensed during the period because we believe they do not reflect the underlying performance of the Company.
- *Allerton Loan:* In 2012, due to the uncertainty of the timing of the bankruptcy resolution, we excluded both cash interest payments received and the legal costs incurred as a result of the bankruptcy proceedings from our calculation of Adjusted EBITDA and Adjusted FFO. Due to the settlement of the bankruptcy proceedings and amended and restated loan, we commenced recognizing interest income in 2013, which includes the amortization of the difference between the carrying basis of the old loan and face value of the new loan. Cash payments received during 2010 and 2011 that were included in Adjusted EBITDA and Adjusted FFO and reduced the carrying basis of the loan will be now be deducted from Adjusted EBITDA and Adjusted FFO on a straight-line basis over the anticipated five-year term of the new loan.
- *Other Non-Cash and /or Unusual Items:* We exclude the effect of certain non-cash and/or unusual items because we believe they do not reflect the underlying performance of the Company. In 2012, we excluded the franchise termination fee paid to Radisson because we believe that including it would not reflect the ongoing performance of the hotel. In 2013, we exclude the severance costs associated with the retirement of our Chief Operating Officer because these costs do not reflect the underlying performance of the Company.

In addition, to derive Adjusted EBITDA we exclude gains or losses on dispositions and impairment losses because we believe that including them in EBITDA does not reflect the ongoing performance of our hotels. Additionally, the gain or loss on dispositions and impairment losses represent either accelerated depreciation or excess depreciation in previous periods, and depreciation is excluded from EBITDA.

In addition, to derive Adjusted FFO we exclude any fair value adjustments to debt instruments. Specifically, we exclude the impact of the non-cash amortization of the debt premium recorded in conjunction with the acquisition of the JW Marriott Denver at Cherry Creek and fair market value adjustments to the Company's interest rate cap agreement.

The following table is a reconciliation of our U.S. GAAP net income to EBITDA and Adjusted EBITDA (in thousands):

	Quarter Ended		Period from	
	June 30, 2013	June 15, 2012	January 1, 2013 to June 30, 2013	January 1, 2012 to June 15, 2012
Net income	\$ 15,072	\$ 8,944	\$ 10,945	\$ 11,559
Interest expense(1)	14,456	12,510	28,040	26,274
Income tax expense (benefit) (2)	4,606	1,848	(1,537)	(3,740)
Real estate related depreciation and amortization(3)	27,193	20,571	54,026	41,089
EBITDA	61,327	43,873	91,474	75,182
Non-cash ground rent	1,717	1,575	3,410	3,107
Non-cash amortization of favorable and unfavorable contract liabilities	(354)	(432)	(709)	(864)
Gain on sale of hotel properties	—	—	—	(10,017)
Gain on early extinguishment of debt	—	—	—	(144)
Acquisition costs	14	1,999	24	2,031
Reversal of previously recognized Allerton income	(291)	—	(581)	—
Allerton loan legal fees	—	590	—	912
Franchise termination fee	—	—	—	750
Impairment of favorable lease asset	—	468	—	468
Severance costs	—	—	3,065	—
Adjusted EBITDA	\$ 62,413	\$ 48,073	\$ 96,683	\$ 71,425

Table of Contents

- (1) Includes \$2.3 million of interest expense included in discontinued operations for the period from January 1, 2012 to June 15, 2012.
- (2) Includes \$0.1 million of income tax expense included in discontinued operations for the quarter ended June 15, 2012 and \$0.3 million of income tax expense included in discontinued operations for the period from January 1, 2012 to June 15, 2012.
- (3) Includes \$0.4 million of depreciation expense included in discontinued operations for the quarter ended June 15, 2012 and \$0.9 million of depreciation expense included in discontinued operations for the period from January 1, 2012 to June 15, 2012.

The following table is a reconciliation of our U.S. GAAP net income to FFO and Adjusted FFO (in thousands):

	Quarter Ended		Period from	
	June 30, 2013	June 15, 2012	January 1, 2013 to June 30, 2013	January 1, 2012 to June 15, 2012
Net income	\$ 15,072	\$ 8,944	\$ 10,945	\$ 11,559
Real estate related depreciation and amortization(1)	27,193	20,571	54,026	41,089
Impairment of favorable lease asset	—	468	—	468
Gain on sale of hotel properties	—	—	—	(10,017)
FFO	42,265	29,983	64,971	43,099

Acquisition costs	14	1,999	24	2,031
Reversal of previously recognized Allerton income	(291)	—	(581)	—
Allerton loan legal fees	—	590	—	912
Franchise termination fee	—	—	—	750
Severance costs	—	—	3,065	—
Fair value adjustments to debt instruments	(125)	448	(191)	401
Adjusted FFO	<u>\$ 43,226</u>	<u>\$ 34,163</u>	<u>\$ 69,989</u>	<u>\$ 49,292</u>

- (1) Includes \$0.4 million of depreciation expense included in discontinued operations for the quarter ended June 15, 2012 and \$0.9 million of depreciation expense included in discontinued operations for the period from January 1, 2012 to June 15, 2012.

Use and Limitations of Non-GAAP Financial Measures

Our management and Board of Directors use EBITDA, Adjusted EBITDA, FFO and Adjusted FFO to evaluate the performance of our hotels and to facilitate comparisons between us and other lodging REITs, hotel owners who are not REITs and other capital intensive companies. The use of these non-GAAP financial measures has certain limitations. These non-GAAP financial measures as presented by us, may not be comparable to non-GAAP financial measures as calculated by other real estate companies. These measures do not reflect certain expenses or expenditures that we incurred and will incur, such as depreciation, interest and capital expenditures. We compensate for these limitations by separately considering the impact of these excluded items to the extent they are material to operating decisions or assessments of our operating performance. Our reconciliations to the most comparable GAAP financial measures, and our consolidated statements of operations and cash flows, include interest expense, capital expenditures, and other excluded items, all of which should be considered when evaluating our performance, as well as the usefulness of our non-GAAP financial measures.

These non-GAAP financial measures are used in addition to and in conjunction with results presented in accordance with GAAP. They should not be considered as alternatives to operating profit, cash flow from operations, or any other operating performance measure prescribed by GAAP. These non-GAAP financial measures reflect additional ways of viewing our operations that we believe, when viewed with our GAAP results and the reconciliations to the corresponding GAAP financial measures, provide a more complete understanding of factors and trends affecting our business than could be obtained absent this disclosure. We strongly encourage investors to review our financial information in its entirety and not to rely on a single financial measure.

Critical Accounting Policies

[Table of Contents](#)

Our consolidated financial statements include the accounts of DiamondRock Hospitality Company and all consolidated subsidiaries. The preparation of financial statements in conformity with U.S. generally accepted accounting principles, or GAAP, requires management to make estimates and assumptions that affect the reported amount of assets and liabilities at the date of our financial statements and the reported amounts of revenues and expenses during the reporting period. While we do not believe the reported amounts would be materially different, application of these policies involves the exercise of judgment and the use of assumptions as to future uncertainties and, as a result, actual results could differ materially from these estimates. We evaluate our estimates and judgments, including those related to the impairment of long-lived assets, on an ongoing basis. We base our estimates on experience and on various other assumptions that are believed to be reasonable under the circumstances. All of our significant accounting policies are disclosed in the notes to our consolidated financial statements. The following represent certain critical accounting policies that require us to exercise our business judgment or make significant estimates:

Investment in Hotels. Acquired hotels, land improvements, building and furniture, fixtures and equipment and identifiable intangible assets are initially recorded at fair value. Additions to property and equipment, including current buildings, improvements, furniture, fixtures and equipment are recorded at cost. Property and equipment are depreciated using the straight-line method over an estimated useful life of 15 to 40 years for buildings and land improvements and one to ten years for furniture and equipment. Identifiable intangible assets are typically related to contracts, including ground lease agreements and hotel management agreements, which are recorded at fair value. Above-market and below-market contract values are based on the present value of the difference between contractual amounts to be paid pursuant to the contracts acquired and our estimate of the fair market contract rates for corresponding contracts. Contracts acquired that are at market do not have significant value. We typically enter into a new hotel management agreement based on market terms at the time of acquisition. Intangible assets are amortized using the straight-line method over the remaining non-cancelable term of the related agreements. In making estimates of fair values for purposes of allocating purchase price, we may utilize a number of sources that may be obtained in connection with the acquisition or financing of a property and other market data. Management also considers information obtained about each property as a result of its pre-acquisition due diligence in estimating the fair value of the tangible and intangible assets acquired.

We review our investments in hotels for impairment whenever events or changes in circumstances indicate that the carrying value of the investments in hotels may not be recoverable. Events or circumstances that may cause us to perform a review include, but are not limited to, adverse changes in the demand for lodging at our properties due to declining national or local economic conditions and/or new hotel construction in markets where our hotels are located. When such conditions exist, management performs an analysis to determine if the estimated undiscounted future cash flows from operations and the proceeds from the ultimate disposition of an investment in a hotel exceed the hotel's carrying value. If the estimated undiscounted future cash flows are less than the carrying amount of the asset, an adjustment to reduce the carrying value to the estimated fair market value is recorded and an impairment loss recognized. Fair market value is estimated based on market data, estimated cash flows discounted at an appropriate rate, comparable sales information and other considerations requiring management to use its judgment in determining the assumptions used.

While our hotels have experienced improvement in certain key operating measures as the general economic conditions improve, the operating performance at certain of our hotels has not achieved our expected levels. As part of our overall capital allocation strategy, we assess underperforming hotels for possible disposition, which could result in a reduction in the carrying values of these properties.

Revenue Recognition. Hotel revenues, including room, golf, food and beverage, and other hotel revenues, are recognized as the related services are provided. Additionally, our operators collect sales, use, occupancy and similar taxes at our hotels which are excluded from revenue in our consolidated statements of operations (revenue is recorded net of such taxes).

Stock-based Compensation. We account for stock-based employee compensation using the fair value based method of accounting. We record the cost of stock-based awards based on the grant-date fair value of the award. For awards based on market conditions, the grant-date fair value is derived using an open form valuation model. The cost of the award is recognized over the period during which an employee is required to provide service in exchange for the award. No compensation cost is recognized for equity instruments for which employees do not render the requisite service.

Income Taxes. Deferred tax assets and liabilities are recognized for the estimated future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates in effect for the year in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities from a change in tax rates is recognized in earnings in the period when the new rate is enacted.

[Table of Contents](#)

We have elected to be treated as a REIT under the provisions of the Code and, as such, are not subject to federal income tax, provided we distribute all of our taxable income annually to our stockholders and comply with certain other requirements. In addition to paying federal and state income tax on any retained income, we are subject to taxes on “built-in-gains” on sales of certain assets. Additionally, our taxable REIT subsidiaries are subject to federal, state and foreign income tax.

Notes Receivable. We initially record acquired notes receivable at cost. Notes receivable are evaluated for collectability and if collectability of the original amounts due is in doubt, the value is adjusted for impairment. If collectability is in doubt, the note is placed in non-accrual status. No interest is recorded on such notes until the timing and amounts of cash receipts can be reasonably estimated. We record cash payments received on non-accrual notes receivable as a reduction in basis. We continually assess the current facts and circumstances to determine whether we can reasonably estimate cash flows. If we can reasonably estimate the timing and amount of cash flows to be collected, then income recognition becomes possible.

Inflation

Operators of hotels, in general, possess the ability to adjust room rates daily to reflect the effects of inflation. However, competitive pressures may limit the ability of our management companies to raise room rates.

Seasonality

The operations of hotels historically have been seasonal depending on location, and accordingly, we expect some seasonality in our business.

New Accounting Pronouncements Not Yet Implemented

There are no new unimplemented accounting pronouncements that are expected to have a material impact on our results of operations, financial position or cash flows.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

Market risk includes risks that arise from changes in interest rates, foreign currency exchange rates, commodity prices, equity prices and other market changes that affect market sensitive instruments. In pursuing our business strategies, the primary market risk to which we are currently exposed, and, to which we expect to be exposed in the future, is interest rate risk. The face amount of our outstanding debt as of June 30, 2013 was \$1.1 billion, of which \$170.4 million was variable rate. If market rates of interest on our variable rate debt fluctuate by 25 basis points, interest expense would increase or decrease, depending on rate movement, future earnings and cash flows, by \$0.4 million annually.

We use our interest rate cap to manage interest rate risk related to our variable rate debt secured by the Lexington Hotel New York. The change in fair value of our interest rate cap is a non-cash transaction and is recorded as a credit or charge to interest expense.

Item 4. Controls and Procedures

The Company’s management has evaluated, under the supervision and with the participation of the Company’s Chief Executive Officer and Chief Financial Officer, the effectiveness of the disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the “Exchange Act”), as required by paragraph (b) of Rules 13a-15 and 15d-15 under the Exchange Act, and has concluded that as of the end of the period covered by this report, the Company’s disclosure controls and procedures were effective to give reasonable assurances that information we disclose in reports filed with the Securities and Exchange Commission is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission’s rules and forms.

There was no change in the Company’s internal control over financial reporting identified in connection with the evaluation required by paragraph (d) of Rules 13a-15 and 15d-15 under the Exchange Act during the Company’s most recent fiscal quarter that materially affected, or is reasonably likely to materially affect, the Company’s internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. *Legal Proceedings*

We are involved in routine litigation arising out of the ordinary course of business, all of which is expected to be covered by insurance and is not expected to have a material adverse impact on our financial condition or results of operations. We are not involved in any material litigation nor, to our knowledge, is any material litigation pending or threatened against us.

Item 1A. *Risk Factors*

None.

Item 2. *Unregistered Sales of Equity Securities and Use of Proceeds*

None.

Item 3. *Defaults Upon Senior Securities*

Not applicable.

Item 4. *Mine Safety Disclosures*

Not applicable.

Item 5. *Other Information*

None.

Certification of Chief Executive Officer
Pursuant to Rule 13a-14(a) and Rule 15d-14(a)

I, Mark W. Brugger, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q of DiamondRock Hospitality Company;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
